Slow Learner and Advanced Learners of Artificial Intelligence and Data Science Department

Introduction:

During the path of Teaching and Learning process, teachers have to deal with different types of students; some are very bright who understand learn very fast and some are quite weak to learn and grasp the instructions very slowly.

Some students need only guidance and some need a hard work and regular guidance. To determine the abilities in the class, particularly when initiating the higher education and proceeding for graduation, a faculty has to recognize the learning attitudes and learning habits of the students differently so as not to lose attention of slow learners and not to turn off the advance learners.

The purpose of these guidelines is to identify the slow and advanced learners of both UG and PG programmes and to assign the supporting activities for both the groups.

This will also help the teaching departments for proper mentoring of their mentee and to monitoring the progress.

Therefore, the admitted students represent a combination of bright students and average students. To help them to cope up with the new learning environment, a number of measures are taken by the Institute for their betterment.

Library facility is available to all students and the learners of all categories are permitted to borrow the books from the library for effective preparation and to collect extra references for the content presentation in the Examination.

Parents are invited in the middle of semester to interact with concerned Class advisors/ mentor and course handling faculty members to discuss the progress of their wards. Mentor-mentee relationship is followed in our institution.

The mentor, herewith called Class advisor has to maintain a Students' Record, to keep track of the records of the mentees. This is to help and to identify the slow learners as well as the advanced learners from each batch of each year and every course.

Process Input:

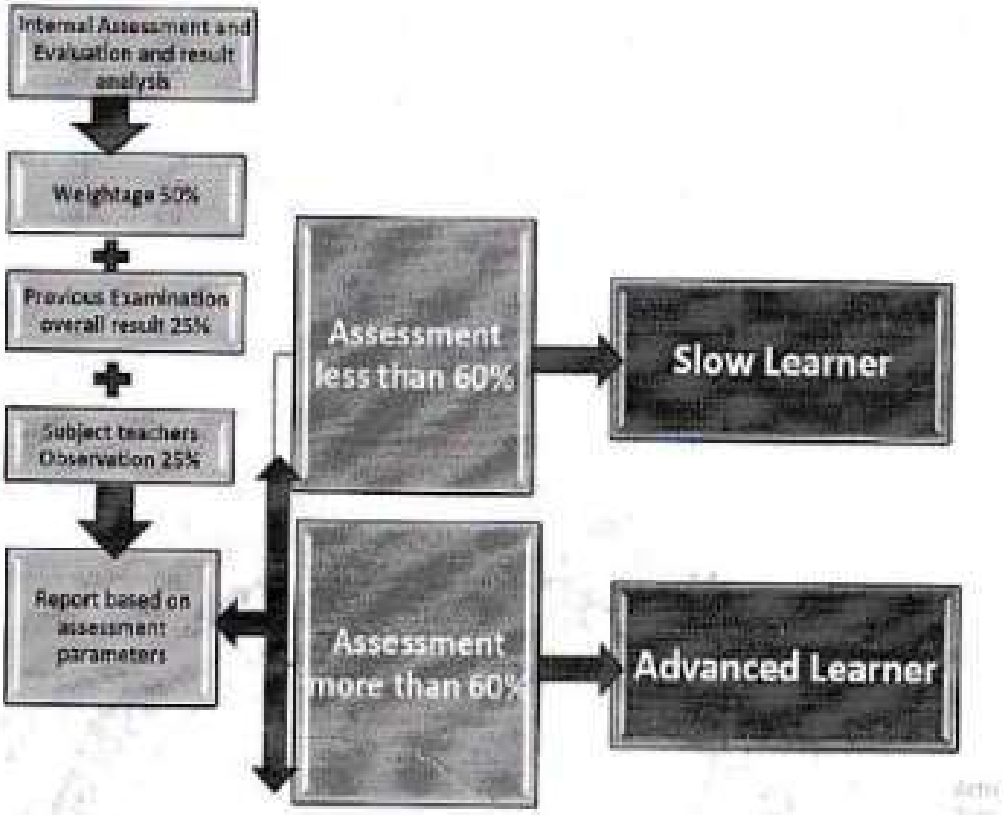

To start identification of slow and advanced learners, the following inputs are needed:

- Overall result of previous examination
- Result of internal assessment
- Class observation of subject teacher

Shree Ramchandra College of Engineering Pune

• Process of Identification:

The process of assessment and identification of learning levels of the students and conduction of activities thereon should be carried out through a methodical technique:

A. Assessment of the learning levels of the students –

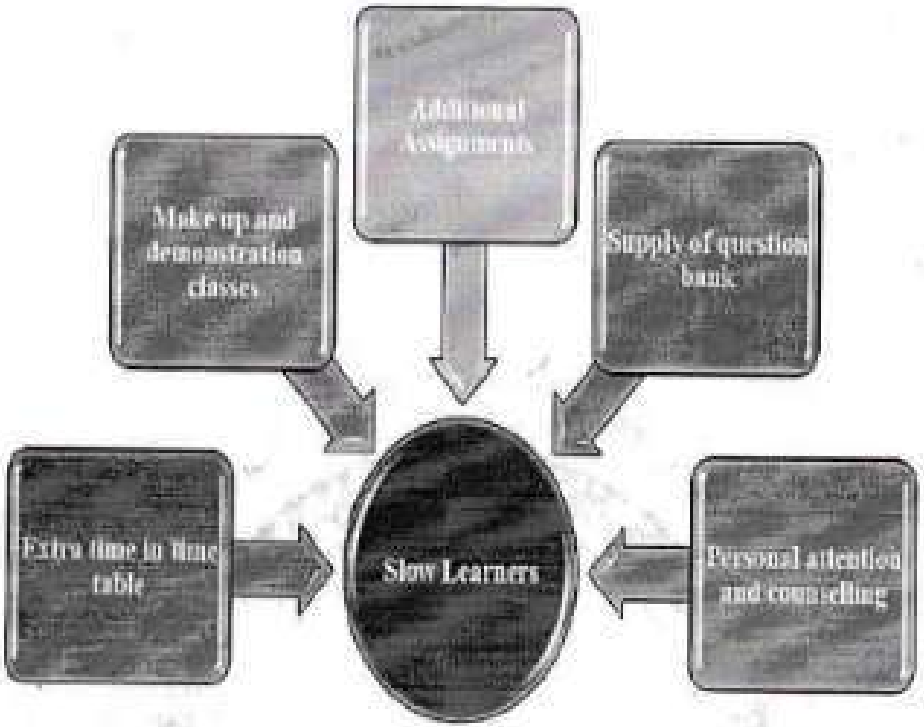

• The slow and Advanced learners would be identified for each subject separately by respective subject teacher for all programmes

• The process of identification would be conducted after declaration of preceding exam result, considering class performance in existing academic session and personal observations of subject teacher

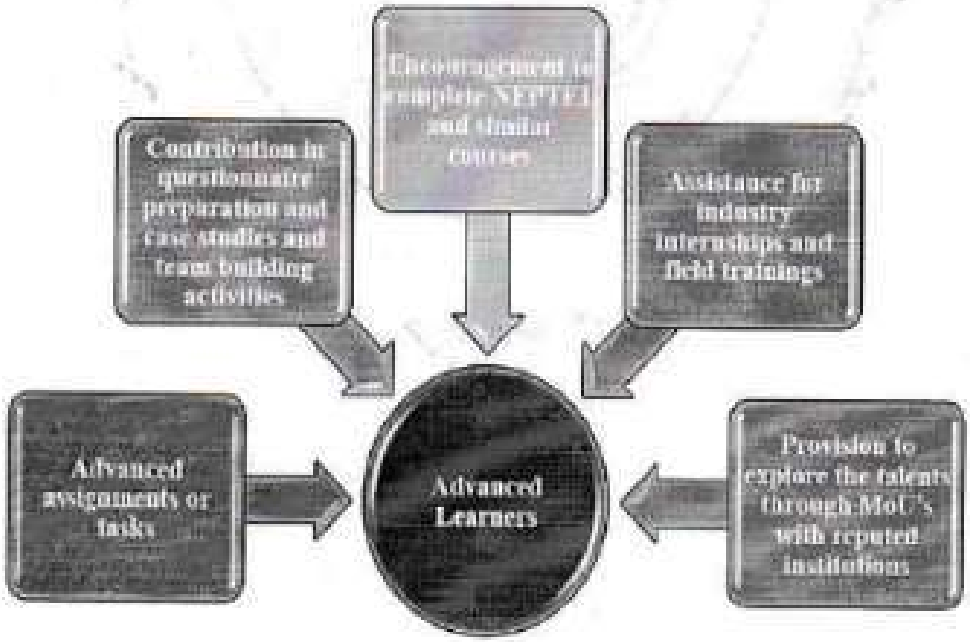

• The following parameters and weightages thereon would be considered

Sr. No	Parameter	Weightage in %
1.	Marks obtained in internal assessment test	50%
2.	Academic performance in previous examination	25%
3.	Observation of subject teacher	25%

- Subject teacher's observation should be recorded on a scale of 1 to 10
- A report would be prepared for whole class for total 100%
- The student securing marks below 50% would be identified as slow learners
- The student securing marks above 70% would be identified as advanced learners

Activities For Slow Learners

Activities For Advanced Learners

B. Conduction of activities for Slow learners –

- Provision of extra time in time table for problem solving sessions/ revision session
- Make up classes and demonstration classes for practical courses
- Assignments in the form of solving previous years examination paper
- Supply of question bank for practice
- Personal attention and counselling for providing special hints and problem solving techniques

C. Conduction of activities for Advanced learners –

- Advanced assignments or tasks like participation in Seminars/ Conferences/ Technical events
- Contribution in questionnaire preparation and conduction of case studies and support in team building activities
- Encouragement to complete NEPTEL and similar courses
- Assistance for industry internships and field trainings
- Provision to explore the talents through MoU' s with reputed institutions

Shree Ramchandra College of Engineering Pune

D. Preparation of performance improvement report –

• Each faculty should prepare report after final result declaration showing improvement in the performance of slow learners to close the loop

• Roles and Responsibilities of Subject Teacher:

The subject teacher is responsible for carrying out different aspects of slow and advanced learners including identification and activities to be conducted.

➢ Conduction of class test
➢ Preparation of marking scheme and assessment rubrics
➢ Evaluation of answer sheets and preparation of result reports
➢ Identification of slow and advanced learners
➢ Preparation of schedule for extra classes/ problem solving sessions/ revision sessions for slow learners and maintenance of records
➢ Preparation of list of advanced assignments or task list for advanced learners
➢ Preparation of improvement reports
➢ Maintenance of activity outcome reports for slow and advanced learners

Documents to be maintained:

- Cover page of activity (Class wise/ Session wise)
- Internal assessment evaluation sheets and tabulation sheets
- List of slow learners and advanced learners
- Activity schedule and time table for slow learners
- List of activity task for advanced learners
- Attendance records
- Performance improvement reports
- Yearly compiled outcome report

Expected outcome:

- Timely conduction of slow learner's activity
- Provision for Continuous assessment
- Improvement of result

THE INSTITUTION ASSESSES THE LEARNING LEVELS OF THE STUDENTS AND ORGANIZES SPECIAL PROGRAMMES FOR ADVANCED LEARNERS AND SLOW LEARNERS

Each type of students has different learning attitudes and learning habits. The objective of such assessment process of the learning levels of the students is

- To identify the factors affecting the student's performance.
- To analyze them with respect to the institutional framework.
- To provide a proper solution for improving their performance and to build a successful career after thorough identification and analysis of the students

2. IDENTIFY SLOW AND ADVANCED LEARNERS

2.1 Student Information Form

Every faculty advisor/mentor maintains a Students' record Following records are to be maintained by Class Advisor/mentor of each class:

(i) Student Information record
(ii) Marks Statement (Internal Assessment and University Exams)
(iii) List of slow and advanced learners of their batch.
(iv) Remedial measures are taken and details (circulars and notices)
(v) Records of activities for both types of learners

2.2 Process to Identify Slow and Advanced Learners

The process of identifying slow and advanced learners is as shown in the table. All students of a particular batch are assessed on following parameters :

Sr. No	Assessment Criteria
1.	**Problem Solving Skills:**
	Previous University Exam Score
	Class Tests
	Attendance
	Assignments and tutorial
2.	**Other parameters:**
	Ability to answer the questions in class
	General awareness
	Attentiveness

Based on above assessed parameters students are classified into groups:

(i) Slow Learners

(ii) Advanced Learners are those students who are ahead on the learning dimensions for the betterment in their life. All the above details are provided by the concerned course handling faculty members.

3. INITIATIVES FOR ADVANCED AND SLOW LEARNERS

3.1 Advanced Learners:

The following Special activities are conducted for Advanced Learners:

- Bright and diligent students are motivated and inspired to get university ranks.
- Semester toppers and university rank holders are honored with certificates and cash prizes.
- Encouraging to participate in various symposiums like quiz, poster presentation
- Conferences, inter institution competition etc.
- Guiding the students for GATE/Competitive Examinations.
- Guiding and encouraging to publish/present research papers in conferences/Journals
- Training programs for gaining advanced technical knowledge.
- Guiding for career planning, Newgen IEDC Project and TNSCST Project competition.

3.2 Slow Learners:

The following activities are conducted for slow Learners:

- Remedial classes conducted for Slow Learners.
- Special Coaching class and Counseling is given to slow learners.
- Previous year Question papers and Question Banks for all subjects are circulated among slow learners.
- Students are given repeated practice on important questions.

Circular

All the faculty members are asked to submit the list of slow learners to the concerned class Teachers for the special remedial classes that planned to conduct from 22/08/23 to 27/ 09/23.

Class teacher are requested to submit the consolidated slow learner list based on internal assessment, attendance, assignment, class test marks.

On the day of coaching classes, the faculties should,

1. Coach the important questions to the students.
2. Provide the supplementary study material.
3. Pay individual attention to the slow learner
4. The attendance should be submitted to HoD after the class.
5. Create ability in the students to answer the questions in class.
6. To create general awareness in the students about their improved performance in academics.
7. To increase the attendance in class.

Slow Learner Report :

1. Conducted a coaching class.
2. During coaching monitoring the students through the improvement.
3. Provided supplementary study materials and support system.
4. Paid individual attention through counselling based on the mentor report.

Impact Observed :

1. Weak students' performance was improve in the semester exam by clearing the papers.
2. The number of arrears of individual student is reduced

ADVANCE LEARNER'S REPORT

Action Taken :

1. Motivated the students to participate in various event and activities.
2. Given the complex problem and assignment to enable them to enhance their problem solving abilities.
3. Motivate the students to take the seminar in the class to improve the delivery.
4. Encouraged the students to obtain the universe ranks.
5. Guided them to enroll in the online courses like NPTEL, SWAYAM.

Impact Observed :

1. Increase in number of student's participation in various contents.
2. Students has applied for the online courses.
3. Students are motivated for taking seminar in the class.
4. Increases in number of students went for the internship.

Slow Learner and Advanced Learners of Artificial Intelligence and Data Science Department

Introduction:

During the path of Teaching and Learning process, teachers have to deal with different types of students; some are very bright who understand learn very fast and some are quite weak to learn and grasp the instructions very slowly.

Some students need only guidance and some need a hard work and regular guidance. To determine the abilities in the class, particularly when initiating the higher education and proceeding for graduation, a faculty has to recognize the learning attitudes and learning habits of the students differently so as not to lose attention of slow learners and not to turn off the advance learners.

The purpose of these guidelines is to identify the slow and advanced learners of both UG and PG programmes and to assign the supporting activities for both the groups.

This will also help the teaching departments for proper mentoring of their mentee and to monitoring the progress.

Therefore, the admitted students represent a combination of bright students and average students. To help them to cope up with the new learning environment, a number of measures are taken by the Institute for their betterment.

Library facility is available to all students and the learners of all categories are permitted to borrow the books from the library for effective preparation and to collect extra references for the content presentation in the Examination.

Parents are invited in the middle of semester to interact with concerned Class advisors/ mentor and course handling faculty members to discuss the progress of their wards. Mentor-mentee relationship is followed in our institution.

The mentor, herewith called Class advisor has to maintain a Students' Record, to keep track of the records of the mentees. This is to help and to identify the slow learners as well as the advanced learners from each batch of each year and every course.

Process Input:

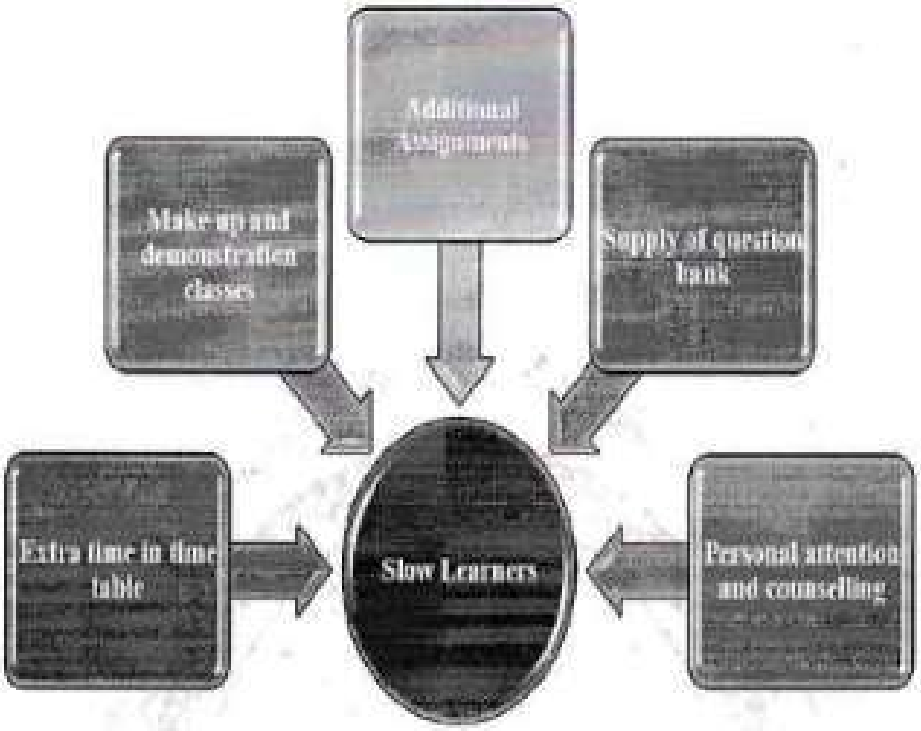

To start identification of slow and advanced learners, the following inputs are needed:

- Overall result of previous examination
- Result of internal assessment
- Class observation of subject teacher

Shree Ramchandra College of Engineering Pune

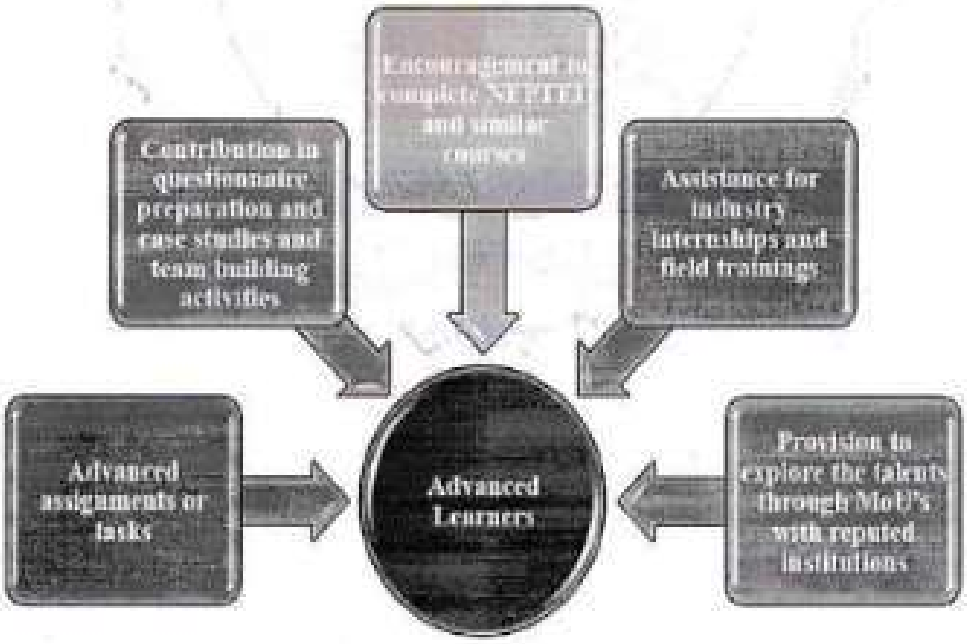

Sr. No	Parameter	Weightage in %
1.	Marks obtained in internal assessment test	50%
2.	Academic performance in previous examination	25%
3.	Observation of subject teacher	25%

- Subject teacher's observation should be recorded on a scale of 1 to 10
- A report would be prepared for whole class for total 100%
- The student securing marks below 50% would be identified as slow learners
- The student securing marks above 70% would be identified as advanced learners

Activities For Slow Learners

Pune

Activities For Advanced Learners

B. Conduction of activities for Slow learners –

- Provision of extra time in time table for problem solving sessions/ revision session
- Make up classes and demonstration classes for practical courses
- Assignments in the form of solving previous years examination paper
- Supply of question bank for practice
- Personal attention and counselling for providing special hints and problem solving techniques

C. Conduction of activities for Advanced learners –

- Advanced assignments or tasks like participation in Seminars/ Conferences/ Technical events
- Contribution in questionnaire preparation and conduction of case studies and support in team building activities
- Encouragement to complete NEPTEL and similar courses
- Assistance for industry internships and field trainings
- Provision to explore the talents through MoU's with reputed institutions

Shree Ramchandra College of Engineering
Pune

D. Preparation of performance improvement report –

• Each faculty should prepare report after final result declaration showing improvement in the performance of slow learners to close the loop

• Roles and Responsibilities of Subject Teacher:

The subject teacher is responsible for carrying out different aspects of slow and advanced learners including identification and activities to be conducted.

➢ Conduction of class test
➢ Preparation of marking scheme and assessment rubrics
➢ Evaluation of answer sheets and preparation of result reports
➢ Identification of slow and advanced learners
➢ Preparation of schedule for extra classes/ problem solving sessions/ revision sessions for slow learners and maintenance of records
➢ Preparation of list of advanced assignments or task list for advanced learners
➢ Preparation of improvement reports
➢ Maintenance of activity outcome reports for slow and advanced learners

Documents to be maintained:

- Cover page of activity (Class wise/ Session wise)
- Internal assessment evaluation sheets and tabulation sheets
- List of slow learners and advanced learners
- Activity schedule and time table for slow learners
- List of activity task for advanced learners
- Attendance records
- Performance improvement reports
- Yearly compiled outcome report

Expected outcome:

- Timely conduction of slow learner's activity
- Provision for Continuous assessment
- Improvement of result

THE INSTITUTION ASSESSES THE LEARNING LEVELS OF THE STUDENTS AND ORGANIZES SPECIAL PROGRAMMES FOR ADVANCED LEARNERS AND SLOW LEARNERS

Each type of students has different learning attitudes and learning habits. The objective of such assessment process of the learning levels of the students is

- To identify the factors affecting the student's performance.
- To analyze them with respect to the institutional framework.
- To provide a proper solution for improving their performance and to build a successful career after thorough identification and analysis of the students

2. IDENTIFY SLOW AND ADVANCED LEARNERS

2.1 Student Information Form

Every faculty advisor/mentor maintains a Students' record Following records are to be maintained by Class Advisor/mentor of each class:

(i) Student Information record
(ii) Marks Statement (Internal Assessment and University Exams)
(iii) List of slow and advanced learners of their batch.
(iv) Remedial measures are taken and details (circulars and notices)
(v) Records of activities for both types of learners

2.2 Process to Identify Slow and Advanced Learners

The process of identifying slow and advanced learners is as shown in the table. All students of a particular batch are assessed on following parameters :

Sr. No	Assessment Criteria
1.	**Problem Solving Skills:**
	Previous University Exam Score
	Class Tests
	Attendance
	Assignments and tutorial
2.	**Other parameters:**
	Ability to answer the questions in class
	General awareness
	Attentiveness

Shree Ramchandra College of Engineering Pune

Based on above assessed parameters students are classified into groups:

(i) Slow Learners

(ii) Advanced Learners are those students who are ahead on the learning dimensions for the betterment in their life. All the above details are provided by the concerned course handling faculty members.

3. INITIATIVES FOR ADVANCED AND SLOW LEARNERS

3.1 Advanced Learners:

The following Special activities are conducted for Advanced Learners:

- Bright and diligent students are motivated and inspired to get university ranks.
- Semester toppers and university rank holders are honored with certificates and cash prizes.
- Encouraging to participate in various symposiums like quiz, poster presentation
- Conferences, inter institution competition etc.
- Guiding the students for GATE/Competitive Examinations.
- Guiding and encouraging to publish/present research papers in conferences/Journals
- Training programs for gaining advanced technical knowledge.
- Guiding for career planning, Newgen IEDC Project and TNSCST Project competition.

3.2 Slow Learners:

The following activities are conducted for slow Learners:

- Remedial classes conducted for Slow Learners.
- Special Coaching class and Counseling is given to slow learners.
- Previous year Question papers and Question Banks for all subjects are circulated among slow learners.
- Students are given repeated practice on important questions.

Circular

All the faculty members are asked to submit the list of slow learners to the concerned class Teachers for the special remedial classes that planned to conduct from 01/01/24 to 31/ 01/24.

Class teacher are requested to submit the consolidated slow learner list based on internal assessment, attendance, assignment, class test marks.

On the day of coaching classes, the faculties should,

1. Coach the important questions to the students.
2. Provide the supplementary study material.
3. Pay individual attention to the slow learner
4. The attendance should be submitted to HoD after the class.
5. Create ability in the students to answer the questions in class.
6. To create general awareness in the students about their improved performance in academics.
7. To increase the attendance in class.

Circular

All the faculty members are asked to submit the list of slow learners to the concerned class Teachers for the special remedial classes that planned to conduct from 01/01/24 to 30/ 01/24.

Class teacher are requested to submit the consolidated slow learner list based on internal assessment, attendance, assignment, class test marks.

On the day of coaching classes, the faculties should,

1. Coach the important questions to the students.
2. Provide the supplementary study material.
3. Pay individual attention to the slow learner
4. The attendance should be submitted to HoD after the class.
5. Create ability in the students to answer the questions in class.
6. To create general awareness in the students about their improved performance in academics.
7. To increase the attendance in class.

Slow Learner Report :

1. Conducted a coaching class.
2. During coaching monitoring the students through the improvement.
3. Provided supplementary study materials and support system.
4. Paid individual attention through counselling based on the mentor report.

Impact Observed :

1. Weak students' performance was improved in the semester exam by clearing the papers.
2. The number of arrears of individual student is reduced

ADVANCE LEARNER'S REPORT

Action Taken :

1. Motivated the students to participate in various event and activities.
2. Given the complex problem and assignment to enable them to enhance their problem solving abilities.
3. Motivate the students to take the seminar in the class to improve the delivery.
4. Encouraged the students to obtain the universe ranks.
5. Guided them to enroll in the online courses like NPTEL, SWAYAM.

Impact Observed :

1. Increase in number of student's participation in various contents.
2. Students has applied for the online courses.
3. Students are motivated for taking seminar in the class.
4. Increases in number of students went for the internship.
