### Student-computer Ratio

Number of students : number of computers

- Number of student during academic year- 2021-2022 = 1085
- Number of computers = 436

$$\begin{aligned}\text{Actual available student computer ratio in institute} &= \frac{\text{Number of student}}{\text{Number of computers}} \\ &= \frac{1085}{436} \\ &= 2.49: 1\end{aligned}$$

Sr. no.	Number of student during academic year- 2021-2022	Number of computers	Student computer-ratio
1	1085	436	2.49:1
